

LAMSON SAFES AND SECURITY

Aussie TAC NR

The Aussie TAC NR is a compact coin dispenser that will only dispense after notes have been inserted in the bill acceptor. It is an essential cash management tool for efficient and accountable coin storage. Coins are vended in plastic tubes which accommodate all denominations and notes. Floats can also be dispensed from these tubes. The treasury of coins and notes will always balance and staff are protected from potential risk of armed offenders.

FEATURES INCLUDE:

- ◆ **Change Dispensing Safe**
Providing coin in exchange for notes
- ◆ **Time Delay**
Controlled access to cash by electronic time delay
- ◆ **Posting Slot**
Fast cash & cheque drops to assist with clearing registers
- ◆ **Easy to self load**
Coins are loaded into tubes & placed inside the safe
- ◆ **Electronic key pad**
Simple to use by all staff

FUNCTIONALITY

The Aussie TAC with Note Reader is designed to enhance cash management by providing change in exchange for notes inserted via the note reader.

PURPOSE OF THE MACHINE

- ✓ Enables coins to be recycled from registers instead of banking the coins
- ✓ Minimises the risk of armed robbery
- ✓ Discourages internal theft
- ✓ Protects treasury and drops with time delay

FEATURES AND BENEFITS

- ◆ Simple to use by all staff
- ◆ Vending notes via note reader will prevent internal shrinkage and discourage armed robbery
- ◆ Time delay for added security
- ◆ Posting slot for clearing the register of notes, coins & cheques
- ◆ Easy to self load
- ◆ LCD display with easy to use key pad

APPLICATION

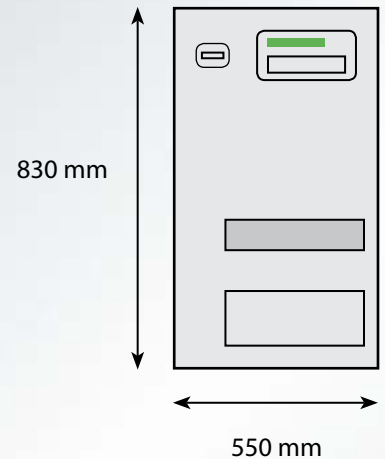

The Aussie TAC is suited for any business that needs to hold a considerable amount of change. The coins and notes are loaded into the tubes and placed in the columns inside the machine. The change selected will be vended when the notes are inserted via the note reader.
